

# Could It Be Any Harder

## The Calling

Composição: Aaron Kamin / Alex Band

Tom: **G**

Intro:(Riff 1)|F - G - C - Am - |-2x

F                      G                      C      Am  
You left me with goodbye and open arms  
F                      G                      C      Am  
A cut so deep I don't deserve  
F                      G                      C      Am  
You were always invincible in my eyes  
F                      G                      C      Am  
The only thing against us now is time

Refrão:

F                      G                      C                      Am  
Could it be any harder to say goodbye and without you,  
F                      G                      C                      Am  
Could it be any harder to watch you go, to face what's true  
F                      G                      Am (Riff 2)  
If I only had one more day

F                      G                      C                      Am  
I lie down and blind myself with laughter  
F                      G                      C                      Am  
A quick fix of hope is what I'm needing  
F    G                      C                      Am  
And how I wish that I could turn back the hours  
F                      G                      C                      Am  
But I know I just don't have the power

Refrão:

F                      G                      C                      Am  
Could it be any harder to say goodbye and without you,  
F                      G                      C                      Am  
Could it be any harder to watch you go, to face what's true  
F                      G                      Am (Riff 2)  
If I only had one more day

F                      G  
 I'd jump at the chance,  
                                  C  
 We'd drink and we'd dance  
                          Am  
 And I'd listen close to your every word,  
 F                      G                      C  
 As if it's your last, I know it's your last,  
          Am                      F                      (Solo)  
 Cause today, oh, you're gone

Solo: |F - G - C - Am - |-2x

                 F                      G                      C                      Am  
 Could it be any harder. . .  
                  F                      G                      C                      Am  
 Could it be any harder. . .

Refrão:

                 F                      G                      C                      Am  
 Could it be any harder to live my life without you,  
                  F                      G                      C                      Am  
 Could it be any harder I'm not alone I'm not alone

F                      G  
 Like sand on my feet,  
                                  C  
 The smell of sweet perfume  
                          Am  
 You stick to me forever baby  
 F                      G  
 And I wish you didn't go  
                          C                      Am  
 I wish you didn't go, I wish you didn't go away  
                  F  
 To touch you again,  
 G                      C  
 With life in your hands,  
                  Am                      F                      G                      C                      Am  
 It couldn't be any harder.. harder.. harder
