

Installation

Dependencies

Fundamental NGX has a few peer dependencies you'll need to add to your project.

NPM

```
npm install --save @ng-bootstrap/ng-bootstrap fundamental-ui@1.2.2
```

Yarn

```
yarn add @ng-bootstrap/ng-bootstrap fundamental-ui@1.2.2
```

Download Fundamental NGX

NPM

```
npm install --save fundamental-ngx
```

Yarn

```
yarn add fundamental-ngx
```

Add Fundamental UI CSS

Fundamental NGX utilizes Fundamental UI styling. You will need to include the fundamental ui css in your project. Open your `angular.json` file and add the following to the `styles` arrays:

```
"./node_modules/fundamental-ui/dist/fundamental-ui.css"
```
